D-Link's DUB-H7 7-Port USB 2.0 Hub provides an easy way to add seven USB 2.0 ports to your notebook or desktop computer. In Fast Charge Mode, each of the USB ports can provide a maximum charging current of 2.4 A for mobile devices, or 1.5 A for Battery Charging 1.2 compliant devices. This means you can charge devices like iPads whilst connecting additional USB devices like digital and web cameras, card readers, hard drives, mice, keyboards, printers, scanners, and other peripherals.

Add Seven USB 2.0 Ports to Your Computer

With the DUB-H7 7-Port USB 2.0 Hub, you can conveniently add more USB 2.0 ports to any computer. Now you can connect up to seven more USB peripheral devices – such as digital cameras, printers, external hard drives, mice, keyboards, flash drives, and tablet computers – to your notebook or desktop computer. USB 2.0 technology supports data rates of up to 480 Mbps, which means that you can enjoy faster transfer speeds compared to previous USB standards.

Fast Charge Your Devices

The DUB-H7 features seven Fast Charge USB ports that are designed to provide an increased maximum charging current of 2.4 A to connected devices when the DUB-H7 is in Fast Charge Mode[1]. This makes it perfect for charging power-hungry mobile devices like the iPad, as these devices have high-capacity batteries that require higher charging currents to recharge quickly and effectively. The DUB-H7 does not require a PC to charge your devices, so you can take it with you on the road and leave your mobile device chargers at home.

Sync and Charge Your iPad Anywhere

The DUB-H7 lets you back up your iPad while giving it a full charge at the same time. It is designed to fit into any notebook bag, and the compact size of the device will allow you to conveniently carry it with you wherever you go. Experience the freedom and convenience of portability and expandability with the D-Link DUB-H7 7-Port USB 2.0 Hub.
